Microsoft  
Dynamics 365

**WASTE MANAGEMENT IS NOTHING MORE THAN A SET OF METHODOLOGIES AIMED AT REDUCING, GENERATING AND DISPOSING OF WASTE THROUGHOUT ITS CYCLE.**

## VERTICAL SOLUTION Enwis

This sector of activity is in increasing expansion and requires, due to its degree of complexity, an integrated software that can guarantee the sustainability of the business and help control all its areas (from operational to financial with all management control).

Microsoft Dynamics 365 Business Central software provides all the functions of a business management software to allow you to manage your company in a complete way.

It also offers additional modules that can be integrated with Microsoft Dynamics ERP to meet the needs of a more advanced management of certain business processes, such as operational waste management.

The enwis solution), fully integrated with the ERP, replaces a set of individual solutions, which are not always interconnected, in an efficient way. The data is now available to users in an easy and intuitive way so that the correct information can be used for management analysis

### YOU CAN GET ACCURATE INFORMATION ABOUT:

**MANAGEMENT:** Integrated and up-to-date view of waste quantities, costs, and profits.

**COMMERCIAL:** Complete and integrated view of all contracts in force, as well as the values of all agreed services (containers, non-recoverable waste, recoverable waste).

**LOGISTICS:** Complete control of all resources used, with the respective costs for each lap, vehicle, driver.

**FINANCIAL:** Traceability of all invoices, including collection orders and weighing receipts.

### THE MAIN ADVANTAGES ARE:

- The **speed of implementation**, as we are dealing with a software with more than 20 years supporting customers around the world in this sector;
- **Full integration** with all business processes and solutions of the Microsoft family (Office and Power BI for example);
- **Secure, scalable investment**, fully accessible wherever you are;
- **Totally flexible.**

Thinking about the support that the Manager needs, we have developed a Business Intelligence solution, combined with enwis) that guarantees a complete and reliable analysis of business data. Completely adjusted to the particularities and complexity of waste management, B!enwis) allows you to extract indicators to better control the activity and make decisions in a sustainable way.

THE ENWIS) AND THE B! ENWIS) ARE SOLUTIONS DEVELOPED ON MICROSOFT DYNAMICS 365 BUSINESS CENTRAL TECHNOLOGY, WHICH ALLOWS THE COMPLETE MANAGEMENT AND ANALYSIS OF ALL AREAS RELATED TO WASTE MANAGEMENT, INCREASING YOUR PRODUCTIVITY AND EFFICIENCY.

## ABOUT ARQUICONSULT
