ARQUICONSULT
Your success. Our solutions.

LS RETAIL
FOR RESTAURANTS

▦ Microsoft

MANAGE YOUR RESTAURANT AND HOSPITALITY OPERATIONS WITH A COMPLETE UNIFIED COMMERCE PLATFORM BUILT ON MICROSOFT 365 BC, POWERED BY AZURE.

UNIFY

■ **GET A COMPLETE AND REAL TIME** overview of your enterprise and locations from HQ and a 360-degree picture of your guests with your core business information maintained in one centralized database.

■ **CONTROL ALL YOUR BUSINESS** processes including ourchasing, CRM, revenue, waste, franchises and financials, in one platform.

■ **MANAGE PRICING,** purchases, menus, recipes, campaigns, offers and promotions centrally.

■ **MANAGE ALL** your restaurant, retail, and food service verticals across your enterprise within one solution with deep industry functionality.

EMPOWER YOUR EMPLOYEES:
• Give guests all the information they need on the dishes, including allergens, and take orders and payments straight at the table: the Point of Sale runs on stationary and mobile devices.
• Enable your staff to quickly find the information they need with the system's role-based view.

DELIGHT GUESTS:
• Deliver dishes at the right time and with no mistakes by giving the kitchen staff a clear overview of orders with the Kitchen Display System (KDS).
• Plan events, track reservations, offer catering services and cooking courses and manage all of them within the same unified commerce platform.
• Save your customers time and money by using their information and present them relevant and appropriate meal deals, personalized offers, promotions, and product recommendations across all touchpoints.
• Run loyalty programs that reward guests across the channels.

REDUCE RISK:
• Reduce IT expenses by implementing fewer systems, resulting in fewer integrations to set up and maintain.
• Reduce manual work and mistakes with the systems' automations.

FOR GLOBAL PLAYERS AND LOCAL NEEDS:
• Easily configure the system to comply with different legal and fiscal requirements;
• Unify your business processes across channels, industries, and regions.
