TEKEVER

Founded in 2001, TEKEVER strives daily to offer its customers unprecedented value on a global scale. Today, it leads the market in unmanned systems technology and services, developing next-generation satellite systems and helping customers digitally transform their businesses.

With a remarkable growth trajectory and an expanding operational structure, TEKEVER identified the need to implement efficient and robust management tools to deal with the complexity of financial and operational processes. The search for suitable solutions led the company to choose the ERP Microsoft Dynamics 365 Business Central as a platform to boost its finance and operational practices. The search for suitable solutions led the company to choose the ERP Microsoft Dynamics 365 Business Central as a platform to boost its operations. «An internal assessment process of ERP tools available on the market was carried out with the objective of identifying the platform that met our requirements

“

An internal assessment process of ERP tools available on the market was carried out with the objective of identifying the platform that met our requirements and that was scalable in terms of size and flexibility, now and in the future. That path ended up leading us to the Microsoft solution.

”

João Brás,
Methods and Process Engineer

“

The choice fell on Arquiconsult for being the partner that we identified in Portugal with the greatest capacity to carry out a successful implementation of the Microsoft Business Central platform in Tekever's activity and processes.

”

João Brás,
Methods and Process Engineer

and that was scalable in terms of size and flexibility, now and in the future. That path ended up leading us to the Microsoft solution», clarified João Brás, Methods and Process Engineer at TEKEVER.

«The choice fell on Arquiconsult for being the partner that we identified in Portugal with the greatest capacity to carry out a successful implementation of the Microsoft Business Central platform in Tekever's activity and processes», said the responsible for the project. Together, TEKEVER and Arquiconsult aim to establish a solid and collaborative partnership, driving mutual growth and providing significant improvements in their daily operations.

Aiming an incessant search for innovation, efficiency and excellence, TEKEVER is ready to embrace the future with confidence, with the implementation of new management tools and with the collaboration of Arquiconsult. «Expectations are high. Business management tools such as ERPs must be process and business catalysts and, as such, the expectation is that this tool will boost all Takever's activities in an integrated, effective and efficient way», he attests.

TEKEVER's goal is to continue to lead market, transform businesses and provide a unique competitive advantage to its customers, in line with its mission of excellence and pioneering in the unmanned technology sector.
